

C program to find sum of positive square elements in an array

Algorithm

Step 1: Start

Step 2: input n

Step 3: $i = 0$; $sum = 0$

Step 4: while $i \leq n$

Step 4.1: $sum = sum + i \times i$

Step 4.2: $i++$

Step 5: Print the sum of square of the elements

Step 6: Stop
